

Join Our Summer Therapy Team at Bay Cliff Health Camp *Where Dreams Come True...*

Each year, PTs, OTs, SLPs, instructors for the hearing & visually impaired, music therapists and rec therapists from across the country spend their summer on the shores of Lake Superior, to share their professional expertise, talents & enthusiasm with the campers at Bay Cliff Health Camp.

Bay Cliff combines a medical-rehab model with traditional summer camp activities. Children, ages 3 - 17, are referred by their therapists & physicians. The campers live at camp for a full seven weeks to work (& play) towards their goals of becoming more independent. Each therapist is assigned a caseload and campers are seen one-on-one, in groups and through co-treatments.

Join us June 13 - August 8, 2010. A salary, comfortable housing and home-cooked meals are provided, in addition to an experience of a lifetime. Call or visit our website for an application and additional information. Help us make dreams come true.
